

## My Children

I will explain to my children that we have to prepare a system that unites us to face the greatest danger of *our* time in this story. The imminent threat is corporations that are under the jurisdiction of The Ruler of All Evil which are under the control of AI. There may be not such a thing as voting in the near future if AI controls all technology with the capability to create virtual wars with AI generated people. It's time to move forward as we are already behind schedule.

I will share with my children that their grandparents and great grandparents were a part of a political system of politics, not governance, with an agenda to keep the formed minds blinded and uneducated to control their existence. The system they were born into divided their conversations at the dinner table while making them believe that each other's opinions were right over the person sitting across from them- family.

What they did not realize is that each side of the table was planting The Seed of Division which the designed political system has achieved. Now at the age of 60,70,80, and 90s they continue using the tongue of the serpent in their rhetoric because that is the tree that has grown from The Seed of Division.

Through The Scholarships 4 Us® Program that I have founded over the past 45 months I can guide my children and grandchildren to understand, appreciate, and discuss history at the dinner table while ensuring we cut the umbilical cord to the past as we must prepare for the what lies ahead- together.

**All we have to do is believe-in and follow the lead of St. Michael.**
